——— WHAT WE BUILD

Our Complete Service Portfolio

End-to-end digital solutions designed for every industry — from startups to large enterprises across India.

Web Design & Development

Pixel-perfect, responsive websites — static, dynamic, corporate, or e-commerce. Fast, SEO-ready, and conversion-focused.

Static · Dynamic · Corporate

Mobile App Development

Native and cross-platform apps for Android & iOS with clean UX, fast performance, and end-to-end support.

Android · iOS · Flutter

UI/UX Design

Figma wireframes, interactive prototypes, and brand-consistent design systems users love.

Figma · Prototypes · Design Systems

E-Commerce Solutions

Full-featured online stores — products, cart, payment gateway, order tracking, and admin panels.

Cart · Payments · Tracking

Custom API Development

Secure, scalable API integrations — WhatsApp, Stripe, Razorpay, and third-party platforms.

REST API · WhatsApp · Stripe

AI Chatbot Integration

24/7 NLP-powered chatbots for customer support, lead capture, and automated replies.

NLP · Lead Capture · Auto-reply

CRM & CMS Development

Custom dashboards, lead pipelines, sales funnels, and content management built around your workflow.

CRM · CMS · Dashboard

SEO & SMO

Rank higher organically. Monthly content updates, keyword tracking, and social media optimisation.

SEO · SMO · Analytics

Web Application & ERP

Complex billing, ERP, and enterprise systems with role management, dashboards, and API integrations.

ERP · Billing · Role Mgmt

ALSO AVAILABLE

IT Management · Payment Gateway · Logo & Brand Identity · Real Estate Portal · LMS Platform · Job Portal · Speed Optimisation · Website AMC · Salon Booking · Auction Website · Jewelry Portal · Logistics Portal · Multi-Vendor Marketplace

BUILD BOOST BRAND

—— WHY GTECH LOGICS

Your Growth Is Our Mission

We don't just build software — we become your long-term digital technology partner.

On-Time Delivery
Structured sprints and agile methodology ensure your project ships on schedule without compromising quality.

Secure & Scalable
Every solution is built with security-first architecture, designed to scale as your business grows.

Custom-Built Solutions
No templates. We understand your business deeply and build exactly what you need — nothing more, nothing less.

Dedicated Post-Launch Support
We stay available after go-live for bug fixes, new features, and ongoing maintenance as your needs evolve.

Latest Technology Stack
React, Node.js, Flutter, AI APIs — we use modern tools to keep your product competitive and future-proof.

Measurable Business Results
Clients report 35–45% efficiency gains. We measure success by your outcomes, not just project delivery.
